How to apply:
phone or email

Interested candidates will be required to complete application for employment online at www.visit-monmouth.com

Job Description:
After undergoing NJDEP approved training, a seasonal employee will primarily work as a certified pesticide operator under the supervision and direction of a mosquito control inspector/licensed applicator. The seasonal employee will become familiar with basic mosquito biology and habitat and participate in an integrated pest management approach to mosquito control. Working in teams of two, the seasonal employee will be responsible to inspect known mosquito habitats, apply appropriate control and maintain accurate records of inspection and action taken. Employee may also be involved in setting and retrieving mosquito traps and related duties under the supervision of mosquito entomologists. Other related duties as required. Work is primarily outdoors. Knowledge of basic biology/ecology is desirable.

Qualifications:
-Map reading
-Record keeping skills
-Must be 18 years or older
-Must have valid NJ basic driver’s license (no provisional licenses) and good driving record
